ALLOWANCE

Claims 1-5, 7-9, 11-21, and 23-36 allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose a microresistivity device that uses a set of six concentric electrodes in the same manner as claimed by the applicant. For example, having the first electrode emit a first current and the first current return to either the fifth or sixth electrode. The prior art also fails to disclose a microresistivity device with an additional seventh electrode located on a tool mandrel that acts as a current return for the first current.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
